PROFILE

Business Information Technology graduate and full-stack developer building dependable web and mobile systems with Laravel, React, Next.js and Flutter. Experienced across booking platforms, content systems, payment integrations, offline-first applications and operational dashboards for financial institutions, NGOs and growing businesses.

EXPERIENCE

Software Developer

2026 — Present

Terex Innovation Lab Limited · Blantyre, Malawi

- Develop frontend and backend systems using Laravel, PHP, JavaScript, React and Flutter.
- Delivered a dual payment-gateway integration after hosting constraints required a mid-build technical pivot.
- Contribute to ZikoSpace, TaxiHire/SWIFTR and the new Terex website currently under review.
- Build role-specific booking, payment and content-management workflows across web and mobile interfaces.

Operations & Financial Records Assistant

Ongoing

Naporcas Business Center · Lilongwe, Malawi

- Manage rental fee collection and maintain accurate financial records.
- Track income, expenditure and payment documentation for reliable reconciliation.

SELECTED PROJECTS

Serenity Hub · Personal Project

- Built a Flutter client and versioned Laravel 13 API covering authentication, searchable resources, guided audio/video sessions and playback progress.
- Implemented mood-informed recommendations, therapist availability, appointment booking, bookmarks, mood check-ins and support requests.

Flutter · Dart · Laravel 13 · PHP 8.3 · Provider · SQLite · REST API · Public repository

Story Workshop Website & CMS · Client Project

Contributed to Story Workshop's public storytelling platform and protected CMS for articles, events, vacancies, bookings, newsletters and submissions.

React 19 · Laravel 13 · Sanctum · MySQL · React Query · Framer Motion

ZikoSpace & TaxiHire / SWIFTR · Terex In-House Projects

Contributed as a Terex Innovation Lab developer: delivered authentication, routing and accommodation booking workflows for ZikoSpace; developed passenger, driver and administrator booking experiences plus PayChangu and OneKhusa payment integrations for TaxiHire.

Laravel · PHP · JavaScript · MySQL · Flutter · Angular · Node.js

EDUCATION

BSc Business Information and Technology

Malawi University of Science and Technology

2022 — August 2026

Graduated 6 August 2026
